

# Cycling art

All children currently still at school can participate together, regardless of age, on a bike-themed artwork that can be worked on over a number of days or weeks.

## Group cycling collage

**Create a giant collage themed around cycling to school.**

The aim is to create a large piece of art which will be a mural for a corridor, or reception area and will reflect the idea of that school being a cycle-friendly community. The piece could be created as a collage or painting.

## This School Rides poster

**Create a poster or sign using words and images**

The aim is to create a sign or poster to go up in reception to welcome back friends - and set the right tone for the school's future!

Using either wording [such as This School Rides] or imagery [such as a picture of the school front with children and parents arriving on bikes], set your creativity free!
